SUMMARY

University student with a strong interest in Artificial Intelligence, software development, and machine learning. Skilled in programming, problem-solving, and teamwork through academic projects. Seeking hands-on technical exposure in a growth-oriented tech environment.

SKILLS

- **Languages:** Python, C++, Dart, Java, SQL
- **Tools & Frameworks:** Flutter, FastAPI, Flask, IntelliJ, VS Code, MySQL, NetBeans
- **Core Concepts:** OOP, Data Structures and Algorithms, Database Design, Data Mining
- **Soft Skills:** Teamwork, Communication, Time Management

EXPERIENCE

Oil & Gas Development Company Limited (OGDCL) — Oil & Gas Training Institute Aug 2025 – Sep 2025

Systems Department Intern

- Completed a 4-week internship in the Systems Department.
- Gained hands-on exposure to SAP ERP GUI.
- Assisted in basic system operations, data handling, and ERP workflows.
- Developed an understanding of enterprise systems in a corporate environment.

PROJECTS

5G Network Slicer (Python / Reactjs / Nextjs)

Role: Implementation of FastAPI, Microservices, Concurrency

- 5G network slicing system with parallel slice services using containerized microservices.

Weather Forecast App – Ongoing (Flutter / Dart)

Role: Android Developer

- Flutter-based weather app with live API integration for location-based forecasts.

Road Accident Severity Prediction System (Python)

Role: Model Training and Testing

- ML system using Streamlit to predict accident severity with balanced data and three models.

Movie Management System (PHP / MySQL)

Role: Back-end Developer

- Secure system with authentication, CRUD operations, and normalized database design.

EDUCATION

COMSATS University Islamabad

2023 – 2027 (Expected)

BS in Computer Science (Data Science), 7th Semester

- CGPA: 3.28

ACHIEVEMENTS

- Former Content Manager, COMSATS Media Club
- Former Media Lead, COMSATS Literary Society (CLS)

LANGUAGES

English (Fluent, IELTS 7.0) | Urdu (Native)
